To whom it may concern,
RE: Vladimira Hanzova

It is with pleasure that I provide a letter of reference for Vladimira Hanzova . Vladimira has been a ski instructor with the Whistler Blackcomb Snow School over the 2017-2018 winter season. Vladimira taught within our Weekend Club Program, dealing with children aged 5-12.

The Whistler Kids Program is extremely hectic and fast paced, having over 1,000 children per day enrolled in group and private lessons. Our instructors are expected to help out in all areas of the program; assisting in the daily morning registration, directing guest traffic, not to mention instructing! Pros like Vladimira are the “experts” amongst our 400 staff. They are relied on to be support for all staff and are chosen for their strong work ethic and sport expertise.

Vladimira mainly taught for a program named Club where she had up to eight 5-12 year old children. She worked diligently at improving the skills of her children over 14 weeks by always providing consistent professional service. Vladimira was able to create a motivating learning environment and friendly atmosphere for the children to enjoy the program. Her co-workers and supervisors find her personable and a pleasure to work with. Vladimira is very self-motivated and committed to any endeavor she decides to pursue.

Vladimira is an invaluable team member of Whistler Kids. She will be an asset to any organization that values hard working, professional people.

Sincerely,

Melissa Smith
